Bring Behavioral Health Into Your Primary Care Practice

Expand Behavioral Health Services Without Building a Behavioral Health Department.

IS YOUR PRACTICE FACING THESE CHALLENGES?

- Patients waiting months to see a psychiatrist
- Depression and anxiety identified during primary care visits
- Limited behavioral health resources
- Increasing mental health needs
- Complex patients requiring ongoing follow-up
- Uncertainty about reimbursement for integrated behavioral health

WHY IMPLEMENT CoCM WITH VPS?

- **Improve** access to behavioral healthcare
- Deliver **measurement-based** care
- Strengthen **collaboration** with psychiatry
- **Reduce** the burden on your clinical staff
- Create a **sustainable** reimbursable service
- **VPS provides** the infrastructure, tools, and support so your team can focus on patient care.

Evidence-Based. CMS Supported. Reimbursable.

THE COLLABORATIVE CARE MODEL (CoCM)

An *evidence-based, CMS-supported* model that integrates behavioral health into primary care through a *collaborative* team approach.

Instead of referring patients elsewhere and hoping they receive care, *your practice manages behavioral health collaboratively* with support from a Behavioral Health Care Manager and a Psychiatric Consultant.

THE COLLABORATIVE CARE TEAM

PRIMARY CARE PROVIDER

- Leads patient care
- Bills CoCM services
- Makes treatment decisions

VALLEY PSYCHIATRIC SERVICES (VPS)

- Collaborative Care Compliance Partner
- Care coordination infrastructure
- Registry & patient tracking
- Measurement-based care
- Documentation support

LOMA LINDA PSYCHIATRIC MEDICAL GROUP (LLPMG)

- Psychiatric Consultant
- Weekly case reviews
- Treatment recommendations

Collaborative Care (CoCM)

Your Implementation Roadmap

Bring Behavioral Health into Your Practice.

1 VERIFY CoCM BILLING ELIGIBILITY

Consult your billing team to determine whether your contracted payers reimburse the Collaborative Care Model using:

CPT 99492 • CPT 99493 • CPT 99494

Ask your biller to verify:

- Covered payers
- Billing requirements
- Documentation requirements
- Patient cost-sharing (if applicable)
- Reimbursement rates

2 PARTNER WITH VPS

Once billing eligibility is confirmed, partner with Valley Psychiatric Services (VPS)—your *Collaborative Care Compliance Partner*. We help your practice implement a CMS-aligned Collaborative Care program with minimal disruption to your existing workflow.

VPS Provides:

- CoCM implementation guidance; enrolling patient you have identified
- Patient registry & tracking
- Care coordination infrastructure
- Patient enrollment support
- Documentation support – We provide CoCM progress reports that capture required care management activities, supporting compliant documentation and billing.
- Staff education
- Quality & Performance Reporting - Receive a program dashboard summarizing key CoCM metrics, including patient enrollment, baseline clinical measures, treatment progress, outcome trends, and program performance to support quality improvement and practice oversight.

Psychiatric consultation is provided by Loma Linda Psychiatric Medical Group (LLPMG).

- ✓ *We build the infrastructure while your team continues caring for patients.*

3 LAUNCH & GROW

Begin identifying eligible patients and billing CoCM services while VPS provides ongoing operational support and LLPMG delivers psychiatric consultation.

- ✓ *Expand access to behavioral healthcare with a sustainable, reimbursable care model.*

DESIGNED FOR BUSY PRIMARY CARE PRACTICES
